

Online safety at home:

Parents and Carers Newsletter

PC 5504 Mike Dix

2021

With the majority of children still learning from home, they will be spending more time online doing their school work, playing games or watching videos. Technology is hugely valuable for education, as well as a way to keep in touch with friends and family. However it's important we all consider how we can support children's online safety during this lockdown, and always. Here's some information about what your child may enjoy online and what you can do to help keep them safer:

Watching videos

The internet is a public and open space where anyone can post and share content. This can be fun and entertaining for children, but it does mean your child may see something that is intended for adults.

Find out what to do if [you're worried your child might see something inappropriate online](#) or what to do [if they already have](#).

Online Gaming

The PEGI (Pan European Game Information) rating system can be a useful tool to help you decide what online games are appropriate for your child.

For more information on the PEGI system and other factors to consider before deciding what's suitable, read [Gaming: what's appropriate for your child](#)

More information?

Thinkuknow is the education programme from the National Crime Agency's Child Protection Command CEOP (NCA-CEOP) whose aim is to protect children and young people from sexual abuse online.

For more information, advice and guidance, visit their [parents website](#) and download their [home activity worksheets](#) for fun, online safety activities to do with your family.

Steps you can take to help keep your child safer online

Supervise their online activity: Keep the devices your child uses in communal areas of the house such as the living room or kitchen, where an adult is able to supervise. Primary-age children should not access the internet in private spaces alone, such as in a bedroom or bathroom.

Take a look at Thinkuknow: Thinkuknow is the national online safety education programme from the National Crime Agency. Thinkuknow offers learning activities, advice and support for children and young people aged 4-18 and their families. The [Jessie & Friends animations](#) for 4 to 7s will help you start a conversation about online safety and for 8-10's, there's the [Play Like Share animations](#) and the [Band Runner game and advice website](#).

Explore together and chat little and often: Ask your child to show you their favourite apps, games and sites and encourage them to teach you how to use these. Ask them if anything ever worries them online. Make sure they know they won't be in trouble and can get help by talking to you or another adult they trust if anything happens online that makes them feel worried, sad or scared.
